ABOUT: KEDER SOLUTIONS®

Keder Solutions began in 2009. After years in the tenting industry, we realized that it was becoming nearly impossible to acquire keder. A few short years later, Keder Solutions has expanded its product lines to include not only keder, but fabrics & vinyl, keder rails, curtain hangers, keder cord, flat keder, accessories and more.

We created Keder Solutions with the user's perspective in mind. We wanted to offer a quality product with fast turnaround. We keep it simple, so you can focus on your projects in the various industries we serve. After listening to our clients' needs and ideas, we developed the highest quality of products and services available.

Our loyal customers have assisted our growth in the company by offering exceptional customer service through maximizing quality control and speedy fulfillment. Today, we're proud to empower companies and individuals around the world. Everyone deserves to have easily accessible products, and we're excited to see what you create.

How Keder Works:

Keder Rail

Keder Cord

Keder Flap

Welded or Sewn

Fabric

Aviation

Utilizing the most durable flame retardant vinyls, our keder system is strong enough to support clear span tent structures large enough to house commercial airplanes.

Awning & Shade

Our keder system — including our keder, keder rail, vinyl, and accessories — allow you to build an awning with a taut finish that keeps your space covered, dry, easy to maintain and looking good.

Construction & Design

Our keder system has many uses in the construction industry, from wrapping scaffolding to protect workers, or to serve as an aesthetic covering to disguise the eyesore of a construction site in a populous area. Keder can also be used to create temporary structures at construction sites, such as temporary working quarters or break rooms.

Disaster Relief

We know time is of the essence after a disaster. And having the ability to build emergency response clinics and shelters quickly is a must. While some competitors can take weeks to fulfill an order, our machines run 24/7 and can often turn around orders on the same day.

Marine

Keder and PVC extrusions are commonly used in the marine industry for boat tops, curtains, and upholstery to create a tight seal. Our flexible rails make it extremely versatile when installing around the curvature of boats. We also provide additional anti-water-wicking keder products and accessories.

Military, Government & Berry Amendment

Keder has nearly limitless uses in military and government applications. And what makes Keder Solutions the go-to is Berry Compliance. Headquartered outside Milwaukee, Wisconsin, we are an American manufacturer with capabilities to source American materials and components to produce Berry Compliant products.

Pool Cover Systems

With corrosion-resistant brass anchors and durable vinyls, we offer a reliable and dependable solution for in-ground pool covers and pool winterization or break rooms.

Vinyl Door & Screen

Our keder system is perfect for vinyl strip doors, commercial roll-up partitions, and home patio screens. And we have a wide selection of keder, fabrics, and keder rail for many applications. Whether you're looking for something durable for commercial use or something that simply looks great and easy to clean for your home, we have exactly what you need.

Signage, Banner & Fabric Printing

Demand is increasing for solutions that affix printed cloth to aluminum frames — in large format printing for both PVC banners and textile frames. Keder Solutions has developed a versatile line of products to support a variety of signage including SEG, retail signage, POS and expo displays.

Tent & Fabric Structure

Our Keder can be used on all major structure and frame tents. By securing a tight and smooth connection between vinyl tops and sidewalls to keder rail, our tents and structures are incredibly durable and long-lasting. Combined, our founders share decades of experience in the tenting and structure industry. Because of our vast experience and knowledge of the industry, we serve tenting and structure clients better than anyone else.

Tarp

Keder offers a durable solution to create tarps for a myriad of applications — everything from containment liners to pond liners to cistern liners and liner underlay. Our tarps can also be used for welding curtains and serve as a protective cover on trucks, rail cars and gondolas. We can also create a tarp for semi trucks in a color to match your company's brand. And our tarps also serve as durable curtains and industrial partitions.

Trailer & Camper

Offering shade or valuable rain protection for your campsite, our keder can be used to create awnings for the side of your camper. We sell the awning rail along with the hangers and accessories, delivering a one-stop awning solution.

Double Flap Keder

Size	4 - 15 mm. (Fully-Bonded DuraKeder™ available)
Unit Length	200 yd.
Weld Size	10 mm.
Flap Size	4 - 6 mm. Keder: 20 mm.	7.5 - 15 mm. Keder: 30 mm.
Fabric	Standard, Panama, Berry Compliant, Anti-Wick™
Color	White, Gray, Black

Single Flap Keder

Size	4 - 15 mm. (Fully-Bonded DuraKeder™ available)
Unit Length	200 yd.

Keder Fabric Types (See specifications on page 19)

Anti-Wick™ Features a unique weave that wicks away water (25 oz.)
Berry Compliant Made in the U.S., ideal for government projects (19 oz.)
HDP HDP (High Density Polyester) a low-friction material (11 oz.)
Panama Tough fabric with a coating that blocks out light (19 oz.)
Standard Durable and reliable keder fabric that is translucent (15 oz.)
24 oz. Heavy, silver panama fabric that blocks out light (24 oz.)
32 oz. Heavy, white-on-white panama fabric that blocks out light (32 oz.)
SINGLE ALUMINUM RAIL

8.5 mm Straight Rail

85-SKR

Size	8.5 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	6 - 8.5 mm.
Material	Aluminum, Anodized

8.5 mm Square Rail

85-SSQ

Size	8.5 mm.
Unit Length	120 in. (3.05 m.)
Keder Compatibility	7.5 - 8.5 mm.
Material	Aluminum, Anodized

8.5 mm 90° Degree Rail
85-SKR-90

Size	8.5 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	6 - 8.5 mm.
Material	Aluminum, Anodized

13 mm Straight Rail

13-SKR

Size	13 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	8.5 - 13 mm.
Material	Aluminum, Anodized

13 mm 90° Degree Rail
13-SKR-90

Size	13 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	8.5 - 13 mm.
Material	Aluminum, Anodized

15 mm Straight Rail

15-SKR

Size	15 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	8.5 - 15 mm.
Material	Aluminum, Anodized

17 mm Straight Rail

17-SKR

Size	17 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	10 - 15 mm.
Material	Aluminum, Anodized

18 mm 90° Degree Rail
18-SKR-90

Size	18 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	10 - 15 mm.
Material	Aluminum, Anodized

AWNING RAIL & DOUBLE ALUMINUM

5 mm Awning Rail

50-AWR-MF
Size	5 mm.
Unit Length	93 in. (2.36 m.)
Keder Compatibility	5 mm.
Material	Aluminum, Mill

8.5 mm Awning Rail

85-AWR-MF
Size	8.5 mm.
Unit Length	93 in. (2.36 m.)
Keder Compatibility	7.5 - 8.5 mm.
Material	Aluminum, Mill

8.5 mm 90° Degree Awning Rail

85-AWR-90-MF
Size	8.5 mm.
Unit Length	93 in. (2.36 m.)
Keder Compatibility	7.5 - 8.5 mm.
Material	Aluminum, Mill

9 mm Double Rail

90-KR-DUB

Size	9 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	7.5 - 11 mm.
Material	Aluminum, Anodized

13 mm 2.0" Double Rail

13-KR-20DUB

Size	13 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	10 - 12 mm.
Material	Aluminum, Anodized

13 mm 3.0" Double Rail

13-KR-30DUB

Size	13 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	10 - 13 mm.
Material	Aluminum, Anodized

13 mm 3.5" Double Rail

13-KR-35DUB

Size	13 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	10 - 13 mm.
Material	Aluminum, Anodized

19 mm Double Rail

19-KR-DUB
Size	19 mm.
Unit Length	240 in. (6.1 m.)
Keder Compatibility	10 - 15 mm.
Material	Aluminum, Mill
7.5 mm Single Keder Rail

85-KR-FLT-WHT
Size	7.5 mm.
Unit Length	93 in. (2.36 m.)
Keder Compatibility	6 - 7.5 mm.
Material / Color	PVC (White)

8.5 mm Awning Rail

85-AWR-PVC

Size	8.5 mm.
Unit Length	90, 93, 96 in.
Keder Compatibility	7.5 - 8.5 mm.
Material / Color	PVC (Black, White)

8.5 mm Radius Rail

85-KR-RAD
| Size	8.5 mm.
Unit Length	93, 96, 120 in.
Keder Compatibility	6 - 8.5 mm.
Material / Color	PVC (Black, White)

8.5 mm Sewable Flange Rail

85-KR-RF

Size	8.5 mm.
Unit Length	93, 96 in.
Keder Compatibility	6 - 8.5 mm.
Material / Color	PVC (Black, White)

7.5 mm Double Keder Rail

KR-DPVC

Size	7.5 mm.
Unit Length	116 in. (2.95 m.)
Keder Compatibility	6 - 7.5 mm.
Material / Color	PVC (White)

7.5 mm Double Rail

75-PVC-DUB

Size	7.5 mm.
Unit Length	93 in. (2.36 m.)
Keder Compatibility	7.5 mm.
Material / Color	PVC (White)

9 mm Double Rail

90-PVC-DUB

Size	9 mm.
Unit Length	196.85 in. (5 m.)
Keder Compatibility	7.5 - 8.5 mm.
Material / Color	PVC (White)

7.5 mm Triple Keder Rail

KR-TPVC

Size	7.5 mm.
Unit Length	93, 144, 192 in. (2.36 m.)
Keder Compatibility	6, 7.5 mm.
Material / Color	PVC (White)

PVC SEG Track

SEG-PVC-16
Size	3 mm.
Unit Length	196.85 in.

Keder Fabric

Keder fabric can be used for a wide range of applications, including tent sidewalls, awnings, curtains, and banners. It is often used in conjunction with aluminum frames or other support structures to create strong and durable temporary or semi-permanent structures. Keder fabric is also commonly used in the transportation industry, where it is used to create truck covers and other heavy-duty tarps. Different fabrics may have different levels of strength, flexibility, and weather resistance, as well as different colors and finishes to suit your specific needs.

CROCODILE HANGERS®

Crocodile Hangers®

Crocodile Hangers™ are the ultimate solution for hanging your tent sidewalls, curtains, awnings, and banners. These versatile plastic hangers are designed to slide easily into keder rails or structure frames, allowing you to quickly and securely hang your materials without the need for complicated hardware or tools. With an impressive 70% increase in strength over other hangers on the market, these hangers have been rigorously tested and confirmed by outside labs to be the strongest and most durable option available. A variety of styles, including options with screws or rivets are available.
